Professional Summary

Java Full Stack Developer skilled in building secure and scalable applications using Spring Boot. Experienced in developing REST APIs, authentication systems, and database integration.

Technical Skills

Languages: Java, JavaScript

Backend: Spring Boot, Spring Security, REST APIs, JPA/Hibernate

Frontend: React.js, Tailwind CSS

Databases: PostgreSQL

Tools: Git, GitHub, Docker, Postman

Professional Experience

Full Stack Developer Intern | Tap Academy

Jan 2026 – Present

Bengaluru, India

- Developed full-stack web applications with a focus on Java and Spring Boot for backend services.
- Designed and built RESTful APIs, handling business logic and application workflows.
- Implemented secure authentication and authorization mechanisms using industry best practices.
- Worked with PostgreSQL for database design, integration, and data management.

Projects

LearnFlow – SaaS Learning Platform | GitHub | Live | Swagger

2026 – Present

Java, Spring Boot, Spring Security, PostgreSQL, React.js, Cloudinary, REST APIs

- Building a full-stack SaaS learning platform with Java Spring Boot backend and React frontend.
- Implemented secure authentication and authorization using Spring Security and JWT.
- Designed RESTful APIs for user management, course content, and platform workflows.
- Integrated Cloudinary for video storage and media management.
- Developing features like video streaming, comments, likes, and downloadable content.
- Building admin panel for course uploads, test creation (MCQ coding), and student management.
- Designed scalable backend architecture with PostgreSQL for data persistence.

Education

Bachelor of Engineering (B.E.) in Computer Science

2022 – 2026

Bheemanna Khandre Institute of Technology, Bhalki

CGPA: 7.6 / 10.0

Certifications & Achievements

- **Database Certification (MongoDB)** – Data modeling, performance optimization, and backend data handling
- **Cyber Security Certification** – Web security, authentication mechanisms, and API protection
